SARVESH PRAJAPATI

prajapati.s@northeastern.edu prajapatisarvesh prajapatisarvesh prajapatisarvesh

EDUCATION

M.S. in Robotics, Northeastern University, GPA: 3.71/4.00 Dec, 2024 (expected)

Thesis: *Risk-Aware planner for robots incorporating perceptual aware spectral analysis*

Focus: *Algorithms*, *Reinforcement Learning*, *Robotic Systems*, *Controls*, *Manipulation*, *Perception*

B.E. in Computer Engineering, Gujarat Technological University, GPA: 3.7/4.00 June, 2022

Thesis: *Advancements in autonomous mobile robots for warehouse management and small scale industry.*

Focus: *Robotics*, *DBMS*, *Data Structure and Algorithms*, *Operating Systems*, *Object Oriented Design*

RESEARCH EXPERIENCE

Applied Scientist Co-Op January, 2024 - Jun, 2024

Amazon Robotics Westborough, US

- Created a robust simulation environment from scratch to test and integrate planning algorithms for robotic manipulators, enhancing system performance and reliability.
- Conducted research involving Manipulators, Deep Learning, Human-Robot Interaction, Perception, and Optimization.

Research Assistant January, 2023 - present

RIVeR Lab, Northeastern University Boston, US

- Researching on DL based approaches to map RGB to hyperspectral images for material recognition.
- Collaborated on implementation of RLMPC-based mobile manipulation framework. Integrated the solution onto a mobile robot coupled with an arm using the **ROS** framework following **CI/CD** methodologies.
- Led perception team for FRASIER, developed a robust mobile manipulation pipeline in C++, Python, and ROS. Increased accuracy of the pipeline to 93% from 83% by leveraging Mask-RCNN.

Research Assistant September, 2022 - December 2022

ReGame-XR Lab, Northeastern University Boston, US

- Led software development team for ExerBike project; modified GTA V, interfaced ANT+ sensor, integrated VR using **.NET** framework that helped securing $\$50$K CBH award and conference publication.

Research Scholar June, 2020 - August 2022

Gujarat Technological University Ahmedabad, IN

- Researched on embedded systems, motion generation and path-planning for mobile robots. Migrated robots controller from Arduinos to STM32 and wrote a short book for undergrads.
- Reseached on different control methods; developed a system for autonomous PID tuning for DC motors.

TEACHING EXPERIENCE

Advanced Perception, Northeastern University — Boston, US
Teaching Assistant — September, 2024 - Present

- Grading and assisting 30 students in navigating research papers and projects related to Computer Vision and Perception in a PhD level course.

Embedded Design Enabling Robotics, Northeastern University — Boston, US
Teaching Assistant — September, 2023 - December, 2023

- Assisted 100 students in a lab focusing on programming robots using De1SoC FPGA.

GTU Robotics Club, Gujarat Technological University — Ahmedabad, IN
Team Leader — July, 2021 - July, 2022

- Taught 40 peers robot programming, computer vision and machine learning over a course of 1 year.

HONORS AND AWARDS

2023 **CS Reseach Mentorship Program Scholar**, Google — Boston, US
2021 **Team represented India in international robotics competition**, ABU Robocon — Jimo, CN
2021 **Code-Decode champion**, Parul University — Vadodara, IN
2020 **Won CTF and OSCP voucher**, Secarmy — Ahmedabad, IN

SKILLS

Programming Languages C++, Python, MATLAB, JavaScript, Bash
Software/Tools ROS 2, Linux, CMake, Arduino, Docker, MoveIt!, Git, Gazebo, Nvidia Isaac Sim, LaTeX
Libraries PCL, OpenCV, PyTorch, TensorFlow, NumPy, Matplotlib, scikit-learn, OpenAI Gym, JAX
Interests Aerospace and Aviation simulation, Piano, Guitar, Books
